

Sometimes a wear strip requires special features:

- Size and shape
- Hole pattern
- Pockets
- Chamfers
- Cutouts

Order a custom wear strip with the features you require already machined in. The part will come to you complete and ready to assemble into the tool, saving both time and money.

Feature	Min	Max	Std Tol
T (thickness)	.25	1	+/- .001
W (width)	.75	8*	+/- .010
L (length)	1	40	+/- .010
